

## AIB Money and Banking

(Registration deadline is one week prior to start date)

*Money and Banking* presents a fundamental treatment of how money functions in the U.S. and world economies. Topics include the concept of money supply and the role your bank plays as a money creator and participant in the nation's payment mechanism. *Money and Banking* also explains how the various types of financial institutions operate, the workings of monetary and fiscal policies, the functions and powers of the Federal Reserve, and more.

### Audience

Bank personnel who have not had a formal course in money and banking and who wish to increase their understanding of the banking industry; officer trainees through the mid-management level.

### Learning Objectives

After completing this program, you will be able to:

- Describe how commercial banks "create" money
- Identify the tools of monetary and fiscal policy
- Summarize and better interpret major trends and issues in banking
- Relate bank operations to the U.S. payments mechanism
- Compare and contrast various types of financial institutions

### ACE College Credit Recommendation

In the upper division baccalaureate degree category, 3 semester hours in Money and Banking or Economics.

\* Registration for one or more courses that include accompanying textbooks will also incur a shipping & handling fee.
