Education Calendar - 2011 Live Events

Date	Seminar/Meeting	Instructor	Location
November 10, 2011	CFO Conference	ABA	Embassy Suites, Little Rock
December 1, 2011	Branch Management Update	Dianne Barton	Holiday Inn Presidential, LR
	Today's Branch Manager is faced with a multitude of "real world" challenges and opportunities. This fast-paced, results-oriented series focuses on the solutions to the questions above and other critical success elements for managing and leading a sales and service team. The workshop is packaged full of checklists, job aids, case studies, examples, and "real world" situations.		
December 6, 2011	IT Security Workshop	Barry Thompson Steve Stasiukonis	Holiday Inn Presidential, LR
	Financial crimes using the Internet have dramatically increased. The use of crime-ware applications like Zeus, Phoenix and Spy-Eye have reaped havoc against banking institutions and their customers. Our instructors will explain how these applications are leveraged to infiltrate the banking industry. The presentation will cover actual cases that involved these applications as well as explain in detail how the crimes were committed.		
December 13, 2011	Conducting Your Annual Physical Security Review & Preparing Your Annual Security Report	Dana Turner	Holiday Inn Presidential, LR
	This presentation suggests a basic methodology and appropriate techniques for conducting an initial and continuing an institution-wide premises security review. Using a simple, industry-standard evaluation process, this presentation also addresses the use of consultants, department managers and other personnel to gather the necessary information for the Security Officer or Auditor to use in making recommendations regarding policies, procedures and processes. You'll be able to make better decisions -- and recommendations -- about what your physical security review should encompass after this presentation.		
December 14, 2011	HMDA Emphasizing Data Reporting Accuracy	Denny Deischer	Holiday Inn Presidential, LR
	Getting the data right remains critical under the reporting requirements of HMDA. Failure to meet the data collection, recording and reporting requirements of the Home Mortgage Disclosure Act (HMDA) increases regulatory risk in compliance, fair lending and CRA examinations. A detailed review of required data reporting requirements and a practical data recording and reporting Case Study will be presented. You will be afforded ample time to ask your HMDA questions during this seminar.
